

Intern Requirement

No. of students required	1
Preferred Discipline	<ul style="list-style-type: none">• Computer Engineering/IT
Prerequisites/ Skills Required	<ul style="list-style-type: none">• C/C++ programming• Knowledge in database and server side scripting preferred• Knowledge in web scripting with Apache PHP and mySQL will be added advantages

Project Details

Title	Database and Graphical User Interface Design and Implementation
Overview/Background	Database and Graphical User Interface (GUI) are critical components in a system to ensure proper data storage, retrieval and representation.
Objectives/Scope/ Deliverables	The intern will be provided exposure to practical cases where the need of a sound database and GUI design is imperative. He/She will then be required to implement a database and GUI for a system, taking into consideration user requirements.
Project Duration	6 months
