

Intern Requirement

No. of students required	1
Preferred Discipline	<ul style="list-style-type: none">• Computer Science• Information Systems• Disciplines with exposure to statistics or data processing, e.g. Economics
Prerequisites/ Skills Required	<ul style="list-style-type: none">• Experience with data processing and cleansing tasks (through economics, statistics or other data intensive disciplines)• Knowledge of database management would be an advantage

Project Details

Title	Evaluation of Data Cleansing & Transformation Softwares
Overview/Background	Data on the Internet is growing at an exponential rate. However, it is often poorly formatted and effort is required to clean and transform the data for consumption by other software, e.g. data visualisation tools
Objectives/Scope/ Deliverables	<ul style="list-style-type: none">• Understand the common tasks performed during the data cleansing and transformation process• Explore and evaluate data cleansing and transformation softwares• Demonstrate potential usage of such a software in a proof-of-concept
Project Duration	2-4 months
