

Intern Requirement

No. of students required	2 to 3
Preferred Discipline	<ul style="list-style-type: none">• Computer Science• Computer Engineering
Prerequisites/ Skills Required	<ul style="list-style-type: none">• Good programming background• Knowledge of C/C++, and C# would be an advantage

Project Details

Title	Creating Security Plugins for Microsoft Office
Overview/Background	Microsoft Office is a commonly used productivity suite by many companies. In view that a common security issue is the loss of highly confidential documents due to events such as theft/loss of laptops, the aim of this project is to develop a plugin for Microsoft Office (Winword) that seamlessly helps users save their documents in a safe and secure manner.
Objectives/Scope/ Deliverables	<ul style="list-style-type: none">• To design and build a plugin for Winword, that seamlessly helps users save their files with encryption• Plugin should support Office 2007 and 2010
Project Duration	2-4 months
