

Intern Requirement

No. of students required	1
Preferred Discipline	<ul style="list-style-type: none">• Infocommunications Technology• Computer Science/ Computer Engineering• Electrical & Electronics Engineering
Prerequisites/ Skills Required	<ul style="list-style-type: none">• Interest in mobile communications and infocomm security• Basic programming knowledge• Independent and willing to learn

Project Details

Title	Securing Android Phone Application Ports
Overview/Background	With the widespread use of e-payment and ibanking via smartphones, mobile phone security has become a concern. Given that these applications typically access mobile phone ports, there is a need to identify and secure these ports.
Objectives/Scope/ Deliverables	This project aims to develop an application for Android phone, to identify and secure the ports accessed by any third party applications.
Project Duration	6 months
