

Intern Requirement

Preferred Discipline	<ul style="list-style-type: none">• Mathematics
Prerequisites/ Skills Required:	<ul style="list-style-type: none">• Computer programming
No. of students required	1

Project Details

Title	Solution of Higher Degree Binary Systems of Equations
Overview/Background	<ul style="list-style-type: none">• Binary systems of equations with that involve products of bits occur in some computational problems. Finding the solutions can be a highly complex task.• Methods of different levels of sophistication exist to tackle such problems.
Scope	To address such problems using elementary methods.
Aims/Objectives/Deliverables	Write a program to solve systems of equations, and describe how it works on examples of small size.
Project Duration	2-4 months
